About the Center for Black Women's Wellness

The Center for Black Women's Wellness is a premier, community-based, family service center committed to improving the health and well-being of underserved Black women and their families. We have served the Atlanta community since 1998. Our vision is to eradicate the inequities preventing women from being whole, healed, and well.

Empowering black women leads to the empowerment of the family and, eventually, the empowerment of the community. That is why the Center for Black Women's Wellness is the ONE place that caters to the physical, mental, and economic needs of Atlanta's black women through comprehensive services.

As we celebrate 30 years of service to the Atlanta community, we do so with pride in the legacy we have created and excellent service we have provided to women and families. We look toward the future with tremendous belief in the promise of the individuals we serve and the communities they impact. Join us for what is certain to be an incredible evening, and the start of our next decade of community-building through comprehensive, effective health programs for women and families.
